

The Proficiency Cycle- Core Data Strategies Module 3 Overview

Topic: Data Informed Instructional Practices

Learning Objectives

I am learning:

- What I need to know and be able to do in order to make the most of my data and inform my practice.
- How to reflect on areas of my practice where I can begin to take notice and collect information data on the performances of my learners.

Learning Activities

Overview-Introduction to the Module

This module will help participants examine their goals and targets for their programs, and consider how to use data to create a pathway for their learners through analysis, advocacy and strong practices.

Reflecting on Your Practice

Discussion & Reflection

- What are ways your learning in this module might support or inform decisions for your learners, on your team or in your program?
- How might diving into your data help you to leverage the strengths on your team, with your resources or your time?
- What do you want to learn more about now?
